# The Hidden Costs Draining Your Budget

# The Core Problem

# 80%

Of building energy costs come from  
HVAC & Lighting.

## This is Unsustainable

Meanwhile, energy prices are constantly rising, and traditional management systems are expensive and complex to install and maintain. This is a drain on your budget and a barrier to sustainability.

---

# Our Revolutionary Solution: **c-BEMS**

A cloud-based, AI-driven platform to take control of your energy.

**c-BEMS**

WE ROCKET YOUR ENERGY SAVINGS!

# What c-BEMS Delivers

## Up to 60% Savings

Drastically reduce energy consumption from HVAC and lighting with intelligent optimization.

## SaaS & IoT Platform

Manage single or multiple buildings from one powerful, easy-to-use cloud dashboard.

## Gen AI & ML

A self-learning system that optimizes based on occupant preferences and real-time data.

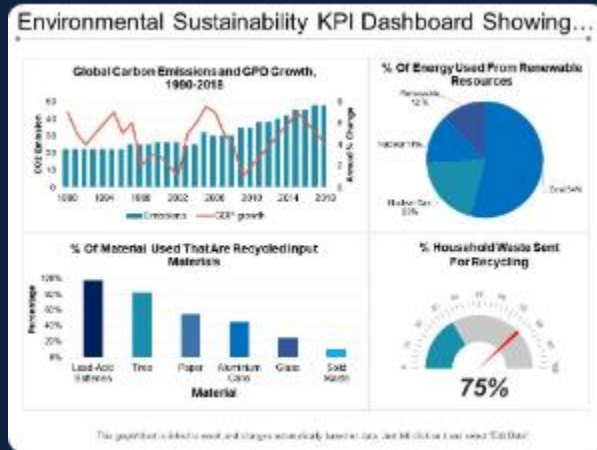

---

# How **c-BEMS** Works

Three powerful, integrated features. One simple platform.

# c-BEMS Features

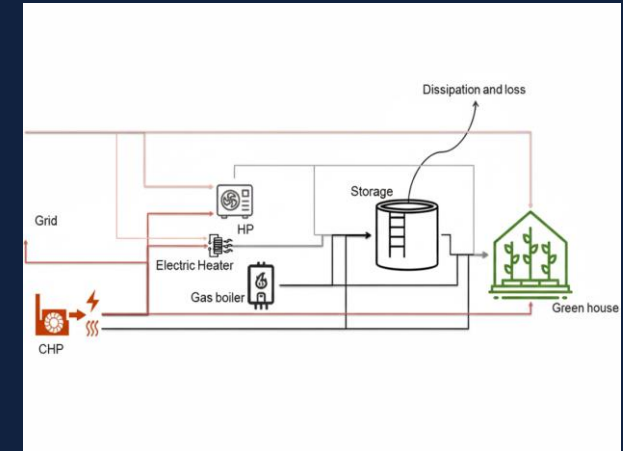

## 1. CO<sub>2</sub> Emissions Calculator

Track and report your building's environmental impact, helping you meet and document ESG goals.

## 2. Energy Demand Forecasting

Our AI provides 85% accuracy on 1-day ahead demand, optimizing your energy purchasing.

## 3. Full System Optimization

Intelligently balances all energy sources (Grid, CHP, Storage, HP) for maximum cost-efficiency.
